

- ▶ Street / residential luminaire
- ▶ High luminous flux
- ▶ Customasable lenses
- ▶ High IP65 with tempered glass

### Benefits

- Delivers reliable performance and significant energy savings
- Provides a choice of high system efficacy levels to meet different energy saving targets
- Simple, economical, sustainable and reliable LED luminaire
- Ensures visual comfort for all users
- Positive impact on environment - directed light (no light pollution), no UV- and IR-irradiation
- Low maintanance costs

Energy-efficient outdoor lighting solutions are important in every municipality, for reasons of environmental protection, light aesthetics and safety at night. Furthermore, we need solutions we can truly rely on. Our model 402C LED road-lighting luminaire brings a new quality of light to residential areas, industrial estates, local roads and cycle paths. This is the perfect combination - superior optics, a weatherproof housing and easy maintenance.

This lightening fixture has two easy changeable and upgradable LED PCBs making it a great investment.

The color temperature can also be customised. Along with the high enviornment protection model 402C comes with a build in termal protection and high efective power supply.
